CP-D90DW

Outstanding print quality with high speed

37x28 cm
excluding optional paper tray

7,8
Seconds

Reduced space

Downsize your current photo system with the perfect replacement: CP-D90DW. With a footprint of just 0.1m², the CP-D90DW increases your profit per square metre.

The new, compact design of the CP-D90DW strategically minimizes protruding and hanging cables for a neat, space-saving installation.

High speed

Coupled with an optimum printing speed of 7.8 seconds and a potential throughput of 450 prints per hour you can seriously upsize your business potential.

Mitsubishi Electric's CP-D90DW comes with an Image Analyzing Engine built-in to enable faster printing without compromise on image quality.

Multiple Sizes

All your customers favourite sizes in one place, including:

2 x 6 / 4 x 2 / 4 x 4 / 4 x 6
5 x 7 / 6 x 8 / 6 x 9

CP-D90DW is compatible with all media used by the D70 series printers, as well as a more versatile and cost-efficient paper with higher print counts per roll.

Better Colours

Beautifully vivid colours and much deeper blacks than other conventional models.

Clearer prints with no blurring even in fine lines and details. No deterioration or compromise of original image details.

Think *it* Print *it* Profit *it*

With its flexibility and user-friendly interface, You will benefit from increased productivity, less labour time and happier customers. In only a few minutes you can quickly and easily print fun and professional albums, books, calendars, greetings cards and many other personalised gifts.
